Khamzasaeed7@gmail.com

linkedin.com/in/hamza7saeed

twitter.com/hamza7_saeed

OBJECTIVE

A Software Engineer with a strong passion for software development. Seeking a Software Developer position in a fast-growing organization to utilize expertise in software development and testing, as well as deployment and support using agile development methodologies. Coming with well-honed skills in computer science, in addition to excellent communication skills.

EDUCATION

Bachelor's in Software Engineering | COMSATS University Islamabad

09/2017 – 08/2021

Major Courses: Programming Fundamentals, Data Structure and Algorithms, Database Systems, Object-Oriented Programming, Object-Oriented Software Engineering, Introduction to Software Engineering, Software Requirement Engineering, Software Quality Engineering, Software Testing, Software Project Management, Scripting Languages, Software Design and Architecture.

EXPERIENCE

Web Projects (Experience 5 years)

Wedbi (Jan 2026 – Current)

It's a one-stop platform to make your wedding planning experience seamless, stress-free, and unforgettable. Whether you're envisioning a grand celebration or an intimate gathering. It's an all-in-one wedding planner.

Website: <https://wedbi.io/>

TheMarket

A peer-to-peer property marketplace where verified owners and buyers list their homes for free and message each other directly — no agent in between, and they keep the commission. Live across Sydney, Melbourne, Austin, and San Francisco.

Website: <https://themarket101.bubbleapps.io/version-test>

Dog Photography Awards Portal

The entry-and-judging portal behind an international photography competition featured in The Guardian, Forbes, and The Telegraph. Photographers submit across six categories while a judging panel spanning seven countries scores every frame to crown the Dog Photographer of the Year.

Website: <https://portal.dogphotographyawards.com/>

Chipotle Money (Feb 2025 – Jan 2026)

It's an option-selling website designed to deliver market analysis on a daily basis. The platform offers option selling ideas, spread analysis, and AI-powered trade plays, catering to traders who sell covered calls, cash-secured puts, or credit spreads. It's built around a community of options sellers.

App Store link: <https://apps.apple.com/us/app/chipotle-money/id6755921197>

Play Store link: <https://play.google.com/store/apps/details?id=com.chipotlemoney.app>

Website: <https://chipotlemoney.com/>

Purpleroof (Feb – Jan 2025)

It's a global real estate marketplace for both rentals and property sales, positioning itself as a free and user-friendly alternative to other listing platforms. The site lists properties globally — including houses, apartments, and commercial properties. It has a complex auto-mortgage calculation. It will recommend the top 3 mortgage options.

URL: <https://purpleroof.com/>

Pangia (July – Feb 2024)

A mobile application that connects your community based on their personalities and uses that information to help you craft unforgettable experiences. It has a dashboard for hosts to manage their communities. Create events to interact with your community. You can also play truth or dare with your community. This is not live anymore.

App Store link: <https://apps.apple.com/us/app/pangia/id6450957939>

Play Store link: <https://play.google.com/store/apps/details?id=com.pangia.pangia>

Host Dashboard: <https://pangiaapp.com/host>

Pharmacy Management App (Apr - June 2023)

An application where people can manage their pharmacy's inventory. They can also request medicine from other pharmacies. You can also manage your employees using this app.

Auto-generate their salary slip according to their attendance. You can also assign them different tasks.

URL: <https://pharmacy1122.bubbleapps.io/version-test/?nav=Splash>

Meezan (Jan - March 2023)

A mobile application used to store credit. It was being used in Dubai on different petrol pumps with these credits, and you were able to purchase petrol. It was really simple, just scan the QR code and pay.

URL: <https://meezan-v1.bubbleapps.io/version-test>

Kupid (Aug - Dec 2022)

A native mobile app where you get the best matches for you. Also, a platform for matchmakers where you help clients with their matches. It was available for Android and the Apple App Store.

URL: <https://app.kupid.io/> (not live anymore)

KarmaClub (Apr - July 2022)

A private angel network making it easy for members to fund good entrepreneurs they believe in. It had the admin tools to manage projects and sort investments. You could sign an agreement with the Entrepreneur through Privy.com, which was embedded in this application.

URL: <https://karmaclub.id/>

ZoiGlobal (April - May 2022)

A web-based mobile application for people to manage their Email campaign and to keep track of their customers. This app was linked with another bubble application, Atruebreakthrough. Atruebreakthrough had the admin controls for Zaps.

URL: <https://zaps.zoiglobal.com/> (not live anymore)

URL: <https://www.atriuebreakthrough.com/> (not live anymore)

GurageShare (June 2022)

A simple website where you can rent your garage, or you can book a garage. Great app for people with lots of parking space, and also for those who don't.

URL: <https://garageshareus.bubbleapps.io/version-test/login/>

Facilitatorpro (Jan - Mar 2022)

A great website to organise events, for example, seminars, workshops, etc. Book vendors with ease. Manage your itinerary with no problems. Chat with your guests, make different group chats for your events.

URL: <https://www.facilitatorpro.co/> (not live anymore)

Demium. (Dec 2021)

A platform for startups to get funding and investors. This was a very big project. In this project, I made a file storage system and synchronized it with their Google Drive.

URL: <https://demium.com/>

MY RESOLV (Nov - Dec 2021)

A Web application for Lawyers that lets your existing workflow tools for clients' engagements to keep consistent client meeting records and monitor your daily workflow productivity while minimizing admin time spent daily. It also had the feature to transcribe the meetings.

URL: <https://www.myresolv.com/> (not live anymore)

THE CHALE APP (Aug - Nov 2021)

The Chale app is a crowd-sourced and user-friendly app that helps you connect to local African businesses from anywhere in the world. It is a website like Yelp, but only for Africa.

URL: <https://thechaleapp.com/> (not live anymore)

Academic Projects

DIGITAL DIARY – FINAL YEAR PROJECT

Digital Diary System has been developed for all the people who want to share their memories. Digital diary lets people save their memories; they can keep it to themselves or make it public. With the Text-to-speech option, Digital Diary is providing users an easy and efficient way to write their diaries. Users can also search their diaries. A digital diary is more secure than traditional diaries; it cannot be lost or damaged. By using Digital Diary, we can make our memories live forever.

- Technologies: Laravel, Bootstrap, Pandas, Scikit-learn, PostgreSQL, HTML5, CSS3, JS
- URL: <https://digitaidiary.000webhostapp.com/> (not live anymore)

COURIER MANAGMET SYSTEM

A management system designed to organize all the products that are being shipped from one place to another. Keep track of the respective shipment. Clients can easily book and keep track of their shipments. It has a very attractive and user-friendly interface.

- Technologies: Java.

TOWER OF HANOI

I created a graphical user interface game with a very eye-catching interface. A project I made to showcase my concepts of Data Structure and Algorithms.

- Technologies: Java.

Research Experience

COMSATS UNIVERSITY ISLAMABAD

I worked under the supervision of Dr. Hikmat Ullah Khan on Text Classification with Movie Reviews Using RNN with the help of IMDB dataset available on “TensorFlow datasets”.

Volunteer Work

- TREASURER IEEE CS, CUI CHAPTER (Jan 2018 – Jul 2019)
- VOLUNTEER WORK IET SOCIETY, CUI CHAPTER (Apr 2019 – Sep 2019)
- GENERAL SECRETARY IEEE, CUI CHAPTER (Jul 2019 – Jul 2021)
